BOTH HANGED IN EFFIGY.

Hostile Demonstrations of Workmen—

Bollermakers’ Strike Ended—Men Go to Work Today.

Homestead, Penn., June 29.—The intense feeling of the workmen at the Homestead steel works has lasted but broke forth. Today there were numerous hostile and exciting demonstrations.

H. C. Prick, William McNeill and several other men were hanged in effigies in the yard on the electric light poles.

When James Doherty, holder of the electric lamp, climbed the poles to pull down the effigy of Mr. Prick, the workmen turned the show that has been permitted as a defense for the troops upon him and caused the gentleman to hasten to a shelter nearby.

Another figure was cut down by a Hungar- ian laborer. As he carried the figure through the yard he met with shouts and jeers on every side.

William McNeill, who was also hung in effigy, is chief of the steel works police.

The only reference against him is his position.

A number of strange men who, it was feared, were here to take the place of the Amalgamated men, were compelled to leave town.

The closing down of the 32-inch mills will be followed by 110-inch mill tonight. Several other departments will close down tonight, and the men will be discharged.

Instead of a strike it will be a lock-out.

The situation has only become more seri- ous.

CONFERENCE WAS FRUITLESS.

Iron and Steel Manufacturers and Employes Cannot Agree.

Pittsburg, Penn., June 29.—The second conference between the Amalgamated As- sociation wage committee and the iron and steel manufacturers was fruitless, and adjourned at 4 o’clock this afternoon.

The squaring question, on which they enacted, was referred back to the convention. The Amalgamated association’s ultimatum is that one-dollars to be the rate on squaring. The manufacturers are willing to go seven dollars in regular sheet mills.

The Amalgamated wage committee will hold a conference with the Stroube and Mahoning Valley iron companies at Youngstown tomorrow. A compromise is anticipated. It is expected that the conference will be a general stoppage in all branches of the iron business.

The 18th annual convention of the Assoc- iated Steel Manufacturers will open in this city this afternoon. Tomorrow, midnight, the Western iron mills will cease to be in existence, and all mills desir- ing to continue at work can only do so under the scales of 65°-95.

ONE STRIKE ENDED.

Bolermakers to Return to Work This Morning.

The strike of the bolermakers of Boston is ended. Through the efforts of the State board of arbitration A. P. Cox, president of the Bolermakers’ Association, Harrison Loring, Dun- can Russell, H. S. Roosevelt, and George E. Mills, representing the manufacturers, and P. Jackson, J. B. Dole and F. B. Denollin, Thomas C. Finnanan, John Hovi and William Solane, representing the strik- ing bolermakers, at 11 o’clock yesterday afternoon.

It was finally decided upon a suggestion from the State board of arbitration, that 48 hours should constitute the term of this stoppage, and that the condition for said hours of work to be the same as had previously received for 60 hours.

About 9 o’clock, the committee from the strikers met the committee from the manufacturers and the result of the conference with the manufacturer, and the terms agreed upon by the com- mittees were accepted.

The men returned to work this morning.

MILDEN LABORERS ORGANIZE.

Objections Raised to Manner of Enforc- ing Nine-Bour Law.

Malden, Mass., June 29.—A mass meet- ing of laborers was held in Bully’s Hall to- night, and a branch of the Elkhurst of Labor was formed.

Two months ago Alderman Dennean in- troduced an order in the city council for in- structing the heads of departments to con- form to the nine-hour law all com- missioners compelled, and in doing reduced the workmen to 70 cents per day. Thence, however, worked by the hour, and not by the day, and for that sum the workmen were not paid by the commissioners. The latter fairly refused to allow the men the wages for that sum. This did not prove satisfac- tory to the men; hence, the meeting of the Malden United Laborers, which was organized by Wili- am Burke of Marblehead, Master Workman Cannington of Melrose, and E. O. Wilson of this city, and others.
